Class Quiz	10
Calendar	11

November

VOLUME 3, ISSUE 4

NOVEMBER 2017

Star Student!

I had my star student lunch on Wednesday, October 25th. I made ham and Swiss croissants. We also had squash and mini apple pies for Harvest of the month. I got to wear a star student cape and I got a pencil!

-Chloe Nelson

Pictures Wanted!

Brorson school is looking for any class or school photos that the community has from any past years! We would like to create a wall of memories to show all the classes and people who attended school in all the years that it has been in our community!

Birthdays!!

Briar** I share a birthday with Claire so we celebrated my birthday earlier in the month. I brought sloppy joes and cupcakes! Mrs. Taylor also gave me a glass ice cream cone full of treats!

Claire** My favorite part of my birthday was when we ate brownies. I also liked when everyone gave me birthday cards.

Mrs. Taylor** My favorite part of my birthday was getting dressed up in my costume and celebrating with everyone at school!

STAR Lab

We did a star lab on October 6th and 9th. We got to see some of the constellations we did in science. Here are some I can name; Pegasus, Orion, Ursa Major, Ursa Minor, Canis Major, Canis Minor. We saw an elephant, spider, bear, and Native American. We got to name some of the constellations (the ones that we looked at in science). I made a picture of a cat witch and named it 'catamagnus'. Everyone else made their own constellations as well. We did a small book with the most common constellations.

-Cayla Hanson

Cottonwood Forest!

This year's pumpkin patch was the best one yet! When we got there the first thing we did was the duck races. The duck races had some old-fashioned pumps connected to pipes so when you pump it water pours out and pushes the duck forward. After that we went to the giant 'pillow' and bounced all over it! After a little bit, we went to the pedal carts. The pedal carts were my favorite thing there. I also tried the zipline there. I was kind of scared at first but after I tried it, it was really fun! The last thing we did was go through the hay bale maze. It was really fun! Before we left the pumpkin patch, we all picked out a pumpkin to take back to school to decorate later. This was the best pumpkin patch yet!

—Liam Steinbeisser

SHAPE 150

This year we are participating in SHAPE 150. All year we will do yoga for 15 minutes every morning. In the afternoon, we do other physical fitness or team building activities. In September we did a Soccer unit, in October we did floor hockey. We also played Pumpkin Patch Tag, Shark Attack, and STEM activities. They were fun!

— Cayla Hanson and Claire Steinbeisser

Crunch Day

We had apples on Crunch Day! It was Tuesday, October 24th. We all ate into our apples at 2:00pm same as every other school in Montana. The apples sure were yummy!

Virtual Naturalist

On October 12, 2017, Ms. Amy went on video conference and talked to us about adaptations to environments. We had a race with Ms. Amy involving the use of thumbs. I raced with her to see who could unbutton their shirt the fastest. I made it first. We then did it again, without being able to use thumbs. My time was 1:53. We also did other races. I enjoyed it! I want to do it again next month.

-Corbin Steinbeisser

Bullying Prevention

This year in Bully prevention month we did a few different things. On October 4th, we looked at ways to identify a bully and learn if you are a bully. We also did big posters about an anti-bullying club that we created with a partner. During Red Ribbon Week was Bullying Prevention Unity day. On that day we all wore orange Wonder Choose Kindness shirts because orange is the color to represent anti-bullying.

-Liam Steinbeisser

Bus Safety Week

Bus safety week was October 16th-20th. We practiced safety on the bus. WE practiced going out the escape door in the back of the bus. Cayla and Corbin

helped us safely sit down and jump out of the bus. We gave Sharisse a preset for driving us safely to school and back home.

-Briar Hanson

Recycling

We are so excited with all that we have recycled. We have been working hard and try to keep our box empty—but you all fill it so fast we can't keep up! If you ever find it too full please stop in the school and we will come out and help!

Teacher Blurb

You have probably noticed that this month's newsletter is longer than usual! That is because we did SO many awesome things in October. Our first quarter is over and we have moved into the second. Thanksgiving and Christmas is coming up so things won't slow down any! Be sure to keep in touch on our Website updated weekly and Facebook updated daily!

Harvest of the Month

In October we had two awesome Harvest of the Month items. We tried locally grown squash in a simple oven baked recipe, and we had delicious apples from a family farm put into mini apple pies! In November we will be trying something new! We will reach out to all of you when we know what we will be trying!

Red Ribbon

On October 23rd–31st, we participated in Red Ribbon Week! We dressed up every day for drug prevention. The first day was 70's tie-dye, the next day we dressed as nerds, after that we dressed

to impress on the red carpet. Friday we dressed up as the future career that we want to be. On the next Monday we wore our favorite sports gear and Tuesday, Halloween, we got to wear our costumes! It was really fun. We also did activities to learn about drug prevention. I really will miss this when I leave next year!

–Corbin Steinbeisser

Art with Brenda

On October 18th, we did a fun project with Tim and Brenda Larson. We painted a piece of wood that had a wedge cut out. The points on top made ears. We painted them with black chalk

paint, sanded them a little, protected them with sealant. When that was all done, Tim helped us glue on googly eyes and tie a ribbon around it so that the finished product was a black cat! They are very cute.

–Claire Steinbeisser

Halloween Party

We had a Halloween party at school on the 31st. It was really fun, we all got to wear our costumes. During the Halloween party we did STEM challenges and a fear factor game. The STEM challenges asked us to get as many ghosts (cottonballs) up from the 'graveyard' using a pully system. We also got to make a bubbling witches' brew and catapults. Halloween is also Mrs. Taylor's birthday so we celebrated that with a birthday lunch and yummy cake!

– Students of grades 3,5,6

Fire Prevention

During the week of October 9th-13th we did activities for Fire Prevention week. We put together a lapbook, did a fire drill, and went to the brand new Fire Hall! It was way bigger and nicer than the old one. It even had a 'museum room' where they displayed photos, plaques, and paintings. The fire hall would even eventually have an old fire truck! The Fire Marshal gave us a tour all around. We went on a small balcony so we could see ALL the fire trucks! It was fun!

-Claire Steinbeisser

Columbus Day

Columbus Day was on October 9th. It was also my mom's birthday! We did a lapbook all about Columbus and watched a Brainpop Columbus video. When the video was over, we took the quiz that went along with the video.

-Cayla Hanson

What was Your Favorite October Activity?!

Chloe— The Halloween party because all we had to do for work was Morning Work and we got to paint pumpkins!

Briar— The Virtual Naturalist lesson was my favorite because we learned about adaptations and we did fun relay races.

Corbin— My favorite part of October was Red Ribbon Week because we learned about drug prevention.

Liam— My favorite thing I did this month was the field trip to the pumpkin patch.

Cayla— My favorite activity this month was the field trip to the pumpkin patch. I loved the zip line!

Claire— My favorite thing in October was going trick-or-treating on Halloween!
